LOCATION
Piliyandala, Colombo, Sri Lanka

TECHNICAL SKILLS

Programming

Java, Python, C, SQL, R

Frameworks & AI/ML

Spring Boot, NumPy, pandas, scikit-learn, data preprocessing, model evaluation

Databases

PostgreSQL, MySQL, relational database design

DevOps & Tools

Git, GitHub, Docker, Jenkins, Kubernetes, Postman

Cloud

AWS security, monitoring and DevOps services

Core Knowledge

OOP, data structures, algorithms, microservices, REST APIs

LANGUAGES

Sinhala Native

English Professional

Tamil Basic

CERTIFICATION

AWS Foundation Courses

Security & DevOps - AWS, 2026

PROFILE

BSc (Hons) Computer Science undergraduate at the University of Sri Jayawardenepura with a strong interest in artificial intelligence, machine learning and software engineering. Experienced in building microservice-based applications with Spring Boot, PostgreSQL, Docker, Jenkins and Kubernetes. Seeking an internship to apply analytical and technical skills to practical, responsible AI and software solutions.

EDUCATION

BSc (Hons) in Computer Science

Apr 2024 - Present

University of Sri Jayawardenepura - Faculty of Applied Sciences

Cumulative GPA: 3.52 / 4.00 (end of Year 2)

G.C.E. Advanced Level - Physical Science

2022

D. S. Senanayake College, Colombo

Combined Mathematics B, Chemistry C, Physics C | Z-score: 1.14

G.C.E. Ordinary Level

2018

Central College, Piliyandala

8 A passes and 1 B pass

PROJECTS

LankaAssist Platform

Java - Spring Boot - PostgreSQL - Docker - Jenkins - Kubernetes

Team-led a privacy-conscious microservices platform that connects people seeking financial or disaster assistance with donors. Coordinated the identity and assistance services, API testing, containerization and CI/CD workflow.

github.com/P1naveen/lankaassist-platform

School Management System

PHP - MySQL - HTML5 - CSS

Developed the front end of a web-based system designed to improve coordination among school administrators, teachers, students and other stakeholders.

Airline Ticket Booking & Reservation System

Java - Swing - MySQL

Built an object-oriented desktop booking system with reservation management and full CRUD operations backed by MySQL.

LEADERSHIP & ACADEMIC ENGAGEMENT

- Team Lead:** LankaAssist Platform - coordinated development tasks and system integration.
- Hackathon Organizer:** Supported a university computing event covering DSA, OS, C, Java and AI/ML.
- Seminar Research:** Explored SVM kernels, hyperparameters, decision boundaries and generalization.
